

Piraterna

Kevin Alavik <kevin@alavik.se>

Introduction

Piraterna is a non-profit organization committed to making the digital world safer, freer, and more transparent. We believe that individuals should have full control over the devices and software they use. Our goal is to create fully free software and media, ensuring that users are empowered to protect their privacy, security, and freedom in the digital world. We envision a future where information is free, and all users can confidently control their digital lives.

Mission

At Piraterna, our mission is simple: to make the digital world a safer, more open, and transparent place. We work towards this by providing fully transparent and free software, while equipping individuals with the knowledge and tools they need to take control of their digital experiences.

Values

Our values shape everything we do at Piraterna:

- **Transparency:** We believe in open and accessible software with no hidden agendas.
- **Privacy:** We prioritize user privacy, ensuring personal data is under the user's control.
- **Collaboration:** We actively collaborate with individuals and organizations to share knowledge and improve solutions.
- **Freedom:** We are committed to advocating for unrestricted access to technology without censorship or surveillance.

Goals

Our goals guide our ongoing work, with both short-term and long-term ambitions:

- **Short-term goals:**
 - Develop a suite of tools for secure communication and data privacy.
 - Promote the adoption of free software among small to medium-sized organizations.
- **Long-term goals:**
 - Advocate for digital rights and freedom on a global scale.
 - Encourage the widespread adoption of free software in mainstream computing environments.

Target Audience

Piraterna's work primarily serves:

- **Individuals:** Those who value privacy, security, and control over their digital lives.
- **Developers:** Those who contribute to open-source projects and the free software movement.
- **Educators:** Those who aim to promote digital literacy, privacy, and security in their communities.

How to Get Involved

There are multiple ways to support Piraterna and join the movement:

- **Contribute Code:** Help us improve our software by contributing to our open-source projects.
- **Spread the Word:** Share our mission and projects with your community to grow the movement.

To get involved, visit our website or contact us at info@piraterna.org.
